

## Introducing - Environ Facial and Skincare Treatments

The following, is a long and detailed document, but well worth reading. It has been split into TWO halves, for ease of download.

The **Amber Health, Beauty and Sports Injury Clinic** have been promoting **Environ Skin Care Products via the International Institute of Anti-Ageing (iiAA)** for over 12 years and have never had a complaint as to the quality of the **Environ Skin Care** products. All proposed treatments are approached in the same way.

A detailed consultation is first carried out with Adelia, our Lead Therapist as part of the **Amber Looking 10 year's Younger** treatment programme, from this, a personalised programme combining homecare products and facial or body treatments can be devised and agreed upon. Our new Salon Therapist – Emma Edwards, is also qualified to carry out these consultations and most of the treatments. Certain skin conditions are easier to treat than others and many skin conditions will see an excellent improvement in a very short space of time. Unfortunately some skin conditions will take commitment, time and patience from both the Client and the Therapist to achieve the required results. During the consultation this will be discussed fully and openly.

The following skin concerns can be addressed with an **Environ Facial or Skincare Treatment**, as part of our **Looking 10 year's Younger** treatment range:

- Anti-Ageing
- Lines & Wrinkles
- Pigmentation
- Scarring reduction, including Stretch Mark Reduction
- Uneven skin texture

- Dry or Dehydrated Skin
- Oily Skin
- Acne or Congested Skin
- Dull or Sluggish Skin
- Sensitive Skin
- Broken Capillaries
- High Colour
- Loss of Elasticity
- Improving condition and health of the skin

## Why Environ Skin Care Products

The **Amber Health, Beauty and Sports Injury Clinic** have been proudly promoting **Environ Skin Care Products via the International Institute of Anti-Ageing (iiAA)** for over 12 years and have never had a complaint as to the quality of the **Environ Skin Care** products. The complete range of **Environ Skin Care** products are available, with advice on how to apply and to purchase. Our lead therapist has attended all Environ Training programmes, at great expense, and is very able to recommend the necessary products and treatments for YOUR skin. If a particular or rare problem is encountered, outside the training of our Lead Therapist, a specialist from **Environ** can be quickly contacted, either via the **iiAA** or right up the organisation to **Environ's** founder in South Africa. Have a look at <http://www.environ.co.za> for further details.

**Environ skincare** was founded by Dr Fernandez, a renowned plastic surgeon in South Africa. The range links technology and ancient remedies together to provide the most wonderful solution to skin care problems. The **Environ®** range introduces to the skin high levels of Vitamin A, C, anti-oxidants and flavonoids in the treatment of problematic, ageing and sun-damaged skin and is suitable for all skin types and all ages. **Environ**, were the first in the world to introduce highly effective doses of Vitamin A which has been clinically proven to repair cell DNA. This has established **Environ®** as a leader in skin care. If one visits an international Beauty exhibition, one will have noted over 10 years the iiAA stand has progressed from a small space to one of the leading stands at any Beauty Exhibition.

**Environ** is one of only a few companies in the world with their own dedicated manufacturing facility and all products are tested by independent laboratories who have certified facilities for; microbiological and vitamin analysis. Maximum efficacy of formulations is maintained by prevention of exposure to light, heat, air and irradiation. The products are only manufactured from the highest quality ingredients and fresh, active vitamins. They are hypo-allergenic and colorant free and preservatives and fragrance are only used when necessary. The products really work!

The unique 'step-up system' allows skin to become comfortable with increased levels of vitamin A and other essential vitamins and antioxidants to guide the skin on its journey to a soft glowing appearance. Professional treatments and home skin care programmes all contribute to Environ's philosophy.

Due to the unique nature of the **Environ** products, they require face to face consultation with a trained **Environ** professional, hence why the UK / European version of the Products are not sold by **Amber Health & Beauty**, over the Internet. One main reason being, that **Environ Vitamin based Products** degrade considerably when radiated; as most Parcels are subjected to radiation (checking for drugs, etc) when borders are crossed. Cheap products imported from Africa, may be useless by the time they arrive in the UK. The iiAA imports from South Africa are not affected (exempt) by this radiographic search requirement.

All **Environ** facials are prescribed to your own personal skin requirements and use the highest quality ingredients, in particular vitamins A, C & E are used which are essential to maintain and repair the skin.

All items can be ordered by phoning or texting Adelia on 0794 138 2194. Many are in stock, if not can be ordered and available with 48 hours. Locally Frank will deliver.

**Contact Amber Health & Beauty for an appointment, or see the Amber Price List for current information.**
